Dear Associate

AM2014/253 - Aircraft Cabin Crew Award 2010 [MA000047] 4-Yearly Review

I refer to Statement and Directions issued 26 August 2016 for a short submission of substantive claims to be filed.

I advise that iCCC, in consultation with the relevant industry union body - the FAAA National Division - is advised that no fatigue risk management system for cabin crew has been outlined by CASA as at today's date.

Accordingly, iCCC will not be filing any further submission in response to the Exposure Draft and relies on its original submission filed in this matter.

As of yesterday 29 September 2016, iCCC has joined with the FAAA National Division. All further correspondence in this matter may be directed to me: Ashley Cutchie, C/- Andrew Staniforth, Secretary, FAAA National Division, 20 Ewan Street, Mascot NSW 2020.

Yours sincerely

A handwritten signature in black ink, appearing to read 'A. Cutchie', is written over a light blue horizontal line.
